

THE LOST TRILOGY OF PROMETHEUS

[EYES ONLY]

In most version written on greek mythology, the seven titans that fought for Cronos always win, despite their predicted defeat on the Island of Tartarus that eventually became the new Olympus, and the titans themselves were, in a way, "immortalized", because Cronos himself, being the god of time, could not. But there is alot of details that remain to be clearly explained. For exemple, the distinction between gods and titans, immortalsAn and mortals. Prometheus was the god of forethought and eventually became a mortal due to his rise against Zeus. Another very prominent member of the team was Orpheus, the god of music, and there is little to no information what became of him as a mortal, and this can be said for many others. Even the seven members are not explicit depending on what you're Reading. Prometheus younger brother Epimetheus, is mostly recognized as one of the seven, but in other version no one even mentions Prometheus had a younger brother, whose gift was very karmatic, to be able to think back in time, and act more and think less, something his brother was unable to do. I could go on, but I'm going to focus on the point of this short article: Ésquilo, a writer of greek theather, wrote 3 episodes relating Prometheus disadventures.

01. *Prometheus Chained (The only one that made it)*
02. *Prometheus: The Carrier of Fire*
03. *Prometheus Unchained*

Me and some friends are already producing a short movie that will give you at least, a very special and well thought short movie that will complete this trilogy. We'll do our best not to let you down. Ridley Scott's "Prometheus" was already a very cool movie, no doubt about it, bu tour main goa lis to actually tell the story of this titan in a very down to earth manner. We won't go as far as putting them all speaking in latin, but we've already decided the second prometheus (the carrier) will actually be a boy in his twenties on the century you live in. It saves us time, Money, and it was a pretty nice way to give the storyline a very dramatic jump in time. Stay tuned.

SOMETIMES HISTORY IS LOST BY ACCIDENT, OR DELETED ON PURPOSE, BUT NO ONE CAN STOP ANYONE FROM DECIDING FROM THEMSELVES WHAT REALLY HAPPENED.
